KNC Preferred Scenario

Thanks to the financial support of the Ontario Trillium Foundation, individual donors and private foundations, KLT was able to offer stewardship assistance to landowners who manage land in or adjacent to priority natural areas identified in the Kawarthas Naturally Connected Natural Heritage System. Together with landowners we planted 18,560 trees and shrubs, managed over 20 acres of invasive plants, seeded 2 acres of pollinator habitat, and removed 1 km of barrier to wildlife movement.
