

Fell Property

Land Donor: Alan Fell

Size: 50 acres

Interesting Features

- Identified by the Kawarthas Naturally Connected Collaborative using the best available conservation science as an important piece of our natural landscape.
- Contains a portion of a Provincially Significant Wetland (PSW) which provides an excellent habitat to a biodiversity of flora and fauna
- Property has been virtually untouched by human activity. Home to significant pristine mixed forests.
- Mitchell Creek runs through the property and leads into Cameron Lake, part of the Trent Severn Waterway (TSW).
