

KAWARTHA LAND TRUST

Natural areas provide physical and mental health benefits and with your help, we would like to keep our trails open

Please abide by the following guidelines while visiting our public properties and trails:

Individuals must practice social distancing and remain at least 2 metres (6 feet) apart on the trails, at trailheads and in parking areas.

Limit the size of your group to five or less people: large gatherings are not acceptable.

Leave no trace: please take all your garbage with you and help us keep our Protected Properties clean. Garbage cans will not be available.

Be extra cautious to avoid injury and/or getting lost.

Have your dog leashed at all times.

Stay on marked trails to avoid coming into contact with poison ivy and disturbing sensitive vegetation and wildlife, and getting lost.

Conduct a tick check as part of your regular routine once you get back home. Ticks are active when the temperature is above freezing.
