-  McKim-Garsonnin Conservation Easement

Part of the glacially formed Oak Ridges Moraine, Kawartha Land Trust's (KLT) Ballyduff Trails is home to headwater streams, dense forests, and one of the rarest and most endangered ecosystems in North America – the tallgrass prairie.

KLT is grateful to the land donors, Ralph McKim and Jean Garsonnin, for their long-time stewardship of the land they love and for protecting it for future generations.
