 Jeffrey-Cowan Forest Preserve Extension

KLT's Ston(e)y Lake Trail Network

-  Blue ~3km
-  Yellow Connector
-  Blue Connector
-  Red ~3.5km
-  Browne ~1km
-  Red Connector
-  Yellow ~ 2km
-  KLT Dock

Thanks to Kawartha Land Trust (KLT) donors, supporters, and volunteers, the north shore of Ston(e)y Lake is home to 10 km of footpaths for you to enjoy with family and friends throughout the year. This footpath network passes through two forests protected by KLT and the private lands of community-minded locals who love seeing people out on the land.

This summer, you can protect an irreplaceable piece of Ston(e)y Lake and contribute to expanding the protected lands around the lake. A beautiful forested property with natural shoreline along the lake has gone up for sale. It's at risk of development if we can't protect it by the end of summer. To learn more about the Jeffrey-Cowan Forest Preserve Extension conservation project and how you can protect nature by making a pledge, visit kawarthalandtrust.org/jcfp-extension.
